Pan-Slavism and Slavophilia in Contemporary Central and Eastern Europe

“This collection is an important contribution in both the historical and contemporary analysis of Pan-Slavism. It places this concept in context of Yugoslavism, as well as Russian appeals to Slavic and Orthodox solidarity and competing European identity. This book will become a standard study on the topic through its comprehensive and systematic approach, covering most Slavic countries and not treating Pan-Slavism as just a type of failed meta nationalism, but as an important idea informing the Slavic world today.”

—Florian Bieber, *Professor of Southeast European History and Politics, University of Graz, Austria*

“The heyday of Pan-Slavism may be long gone, but the idea of the brotherhood of Slavs continues to inspire a range of cultural, civilisational and geopolitical imaginations in Europe. This book is a veritable treasure trove for anyone interested in the curious evolution of this understudied phenomenon and its contemporary ramifications.”

—Filip Ejdus, *Associate Professor at Faculty of Political Science, University of Belgrade, Serbia*
